

The East Anglian Psychotherapy Network

Keeping Risk in Mind

An Online Conference

Saturday 20th March 2021 10.00am – 5.00pm

Almost exactly a year after the global coronavirus pandemic first impacted on life in the British Isles, we are pleased to announce the second Conference of the East Anglian Psychotherapy Network - postponed from a year ago. The Conference will be wholly Online and is open to all our colleagues in the psychoanalytic and psychodynamic psychotherapy community and other mental health care professionals whose work brings them into contact with issues of safety and risk. The programme has been expanded to recognise the added dimension to risk that all clinicians have had to keep in mind during the pandemic. Alongside our scheduled presentations, the Conference is an opportunity to share our experience of the year-long challenges it has meant for each of us and for society as a whole.

- *Why has risk become such an intense preoccupation for clinicians and in the wider political and social context? Thoughts for 2021.*

Margaret Rustin

Child and Adolescent and Adult Psychotherapist and former Head of Child Psychotherapy at the Tavistock and Portman NHS Trust

Michael Rustin Professor of Sociology at the University of East London, visiting Professor at the Tavistock and Portman NHS Trust and Essex University; Associate of the British Psychoanalytical Society

- *Anticipating Suicide*

Donald Campbell Child and Adult Psychoanalyst; Fellow of the British Psychoanalytical Society and The Institute of Psychoanalysis

- *The Vulnerability of and Risks to Workers in the Mental Health Services during the Covid 19 lockdown*

Angela Foster Psychiatric Social Worker, Psychoanalytic Psychotherapist & Supervisor
